

Ameera a

B.Tech – AI&DS (Final Year)

☎ Phone: +91 8428793863 | ✉ Email: ameeraabdul2906@gmail.com | 💼 LinkedIn: <https://www.linkedin.com/in/ameera-ai> | 🐙 GitHub: <https://github.com/Ameera1929>

Career objectives

Final-year B.Tech Artificial Intelligence and Data Science student with a strong foundation in Machine Learning, Data Science, and Artificial Intelligence. Passionate about building intelligent solutions using data-driven approaches and continuously expanding technical expertise through academic projects and internships. Seeking an opportunity to contribute as an AI Engineer or Data Scientist while learning and growing in a collaborative environment.

Education

B.Tech – Artificial Intelligence and Data Science, S. Veerasamy Chettiar College of Engineering and Technology,

Anna University (2023–2027),

CGPA: 8.3

Technical Skills

Programming: Python, C, HTML Frameworks: Scikit-learn, TensorFlow, Flask. Databases: MySQL, MongoDB, SQLite. Tools: Streamlit, Jupyter Notebook, VS Code, Git, GitHub, MS Excel, MS Word, MS PowerPoint, Power BI. Core: AI, Machine Learning, Deep Learning, Data Analytics, Full Stack Development

Projects

salary prediction system

- Developed a Machine Learning model to predict employee salaries using multiple input features.
- Performed data preprocessing, feature engineering, model training, and evaluation.
- Utilized visualization techniques for better data understanding.

Technologies used: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, Git, GitHub

Github Repo : https://github.com/Ameera1929/Salary_prediction.git

Live Demo : <https://salary-predictionsystem-1929.streamlit.app/>

smart energy consumption

- Developed a Machine Learning model to energy consumption from historical dataset
- Perform Preprocessing, Visualization and Predictive Analysis

Technologies Used : Python, Machine Learning, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, GitHub.

Github Repo: [Ameera1929/energy_prediction.git](https://github.com/Ameera1929/energy_prediction.git)

Live Demo : <https://energyconsumption-1929.streamlit.app/>

insurance cost prediction

- Collaborate in Developing a machine learning model for insurance cost prediction
- Contribute to data Preprocessing ,model development and Streamlit deployment

Technologies used: Python, Machine Learning, Pandas, NumPy, Scikit-learn, Streamlit, GitHub

Github Repo : [Ameera1929/Insurance_Cost_Prediction.git](https://github.com/Ameera1929/Insurance_Cost_Prediction.git)

Live Demo : <https://insurancecostprediction-1929.streamlit.app/>

internships

AI & ML Intern – Nexila Technologies

Duration : 04 Feb 2026 – 04 Mar 2026

Worked on AI/ML concepts, preprocessing, model training, evaluation and real-world applications.

Data Analytics Intern – Novitech R&D; Pvt. Ltd.

Duration : 24 Apr 2025 – 24 May 2025

Worked on analytics projects, cleaning, visualization and insights.

Artificial Intelligence Intern – Novitech R&D; Pvt. Ltd.

Duration : 24 May 2025 – 24 Jun 2025

Worked on AI concepts and intelligent solution development.

Machine Learning Intern – Novitech R&D; Pvt. Ltd.

Duration : 24 Jun 2025 – 24 Jul 2025

Built ML models, preprocessing, feature engineering and optimization.

certifications

Artificial Intelligence, Machine Learning, Deep Learning, Internet Of Things, Full Stack Development, Block Chain, Data Analytics, Dashboard Creation in Microsoft Excel, Productivity With Macros, C Programming

languages

- Tamil
- English
